PROGRAMME DESCRIPTION

This programme teaches the best practices to effectively diagnose arrhythmias, using intracardiac electrogram tracings. The faculty will review key factors to understanding arrhythmogenic electrocardiographic features.

Time	Programme
0800	Registration
0825	Welcome address <i>Teo Wee Siong</i>
0830	Interpretation and Analysis of Intracardiac Electrograms I <i>Facilitator: Eric Prystowsky, Co-Facilitator: Surinder Kaur</i> <i>Discussants: Seow Swee Chong, Tan Boon Yew, Tan Vern Hsen</i>
1000	Tea break
1015	Interpretation and Analysis of Intracardiac Electrograms II <i>Facilitator: Eric Prystowsky, Co-Facilitator: Sirin Apiyasawat</i> <i>Discussants: Ho Kah Leng, Lim Toon Wei, Devinder Singh</i>
1145	Lunch
1230	Interpretation and Analysis of CRM Device Tracings <i>Facilitators: Daniel Chong, Robert Kowal</i> <i>Discussants: Lee Chee Wan, Teo Wee Siong</i>
1330	Interpretation and Analysis of Intracardiac Electrograms III <i>Facilitator: Eric Prystowsky, Co-Facilitator: Ching Chi Keong</i> <i>Discussants: Irene Chung, Pipin Kojodjojo</i>
1430	Tea break
1445	Interpretation and Analysis of Intracardiac Electrograms IV <i>Facilitator: Eric Prystowsky, Co-Facilitator: Yoga Yuniadi</i> <i>Discussants: Daniel Chong, Kelvin Wong</i>
1630	Concluding remarks <i>Teo Wee Siong</i>

LEARNING OBJECTIVES

- Define an approach to diagnosing complex arrhythmias
- Accurately interpret intracardiac electrograms of supraventricular and ventricular arrhythmias
- Analyze the response to various electrophysiological pacing maneuvers
