

## APHRS Fellowship Training Centre

<b>Name of Training Centre</b>	Fuwai Hospital Chinese Academy of Medical Sciences (CAMS)
<b>Short Introduction</b>	<p>Fuwai Hospital is the National Center for Cardiovascular Diseases, State Key Laboratory of Cardiovascular Disease, and National Clinical Research Center of Cardiovascular Diseases. It is well known internationally for treatment of all kinds of complex, difficult, and severe cardiovascular diseases, and has become the world's biggest cardiovascular center, as well as a national center for clinical healthcare, medical research, disease prevention and education.</p> <p>The Cardiac Arrhythmia center has 3 wards including 120 beds. There were more than 10,000 ablations performed and 3,100 devices implanted in 2025.</p> <p>The Ward Three medical team consists of 10 Electrophysiologists. The ward performs approximately 4,000 interventional procedures for cardiac arrhythmias annually, including catheter ablation for various complex and difficult arrhythmias, cardiac device implantation for critically ill patients, and laser sheath extraction of leads. The medical team collaborates to provide patients with high-quality, safe services through first-class, proficient treatment techniques, a rigorous and responsible work style, and a warm and humble work attitude. The team has received consistent recognition from peers both domestically and internationally, and has attracted a large number of patients from all over the country who come specifically for treatment.</p> <p>The ward currently performs routine cardiac arrhythmia interventional procedures, including various three-dimensional mapping technique-guided catheter ablation, intracardiac echocardiography (ICE)-guided radiofrequency ablation, pulsed field ablation, left atrial appendage occlusion, cardiac pacemaker and implantable cardioverter defibrillator (ICD) implantation, cardiac resynchronization therapy (CRT), leadless pacemaker implantation, fully subcutaneous ICD implantation, cardiac contractility modulation device implantation, and percutaneous endomyocardial biopsy. The team specializes in the diagnosis and treatment of various types of rapid arrhythmias, slow arrhythmias, and complex, difficult arrhythmias.</p>
<b>Official Website of Training Centre</b>	<a href="https://www.fuwaihospital.org">https://www.fuwaihospital.org</a>
<b>Country &amp; City</b>	China, Beijing

<b>Contact Person &amp; Email</b>	Ning Xiaohui <a href="mailto:fuwainxh@163.com">fuwainxh@163.com</a>
<b>Field of Expertise</b> ( <i>EP, CIED</i> )	EP, CIED, Extraction of leads
<b>Number of Procedures per Year</b>	<b>Ablations:</b> 3000 procedures/per year in each ward
	<b>Device Implantations:</b> 1000 procedures/per year in each ward
<b>Products / Systems Used</b> ( <i>e.g., Carto, Ensite, PFA, etc.</i> )	Carto, Ensite, PFA, Laser Sheath Technology
<b>Specific Procedures Offered</b> ( <i>Procedures participants can expect in addition to the usual ones, e.g., CSP, SCID/EVICD</i> )	PFA for atrial fibrillation, ventricular arrhythmias and other arrhythmias. Alcohol Ablation for complex arrhythmias, Epicardial Ablation for ventricular tachycardia. CSP, SCID/EVICD, Laser Sheath Technology for Electrode Lead Extraction.
<b>List of Electrophysiologists</b> ( <i>Please list in bullet points for clarity</i> )	<ul style="list-style-type: none"> <li>• Tang Min</li> <li>• Hua Wei</li> <li>• Niu Hongxia</li> <li>• Hou Cuihong</li> <li>• Wang Jing</li> <li>• Chen Xuhua</li> <li>• Ning Xiaohui</li> <li>• Shen Yujing</li> <li>• Gu Min</li> <li>• Li Xiaofeng</li> </ul>
<b>Available Training Duration</b>	<input checked="" type="checkbox"/> Long Term: 1 Year
	<input checked="" type="checkbox"/> Short Term: 2 Weeks
	<input checked="" type="checkbox"/> Short Term: 1 Month
	<input checked="" type="checkbox"/> Short Term: 3 Months
