

APHRs-Certified Fellowship Training Centre

| | |
|--------------------------------|--|
| Name of Training Centre | National Cardiovascular Center Harapan Kita |
| Short Introduction | <p>As the national referral center for cardiovascular diseases in Indonesia, the National Cardiovascular Center Harapan Kita (NCCHK) stands as the country’s premier Fellowship Training Centre. It is a world-class hub dedicated to advancing the expertise of medical specialists through rigorous, hands-on clinical training and cutting-edge research.</p> <p>A Legacy of Excellence in Medical Education NCCHK serves as the "Center of Excellence" for cardiovascular care, blending high-volume clinical practice with an academic environment. The Fellowship Training Centre is designed to transform specialists into sub-specialists (consultants) who are equipped to handle the most complex cardiac conditions using the latest medical protocols.</p> <p>Specialized Fellowship Programs The center offers a wide array of sub-specialty programs, ensuring comprehensive coverage of modern cardiology and vascular medicine:</p> <ul style="list-style-type: none"> • Interventional Cardiology: Mastery of complex percutaneous coronary interventions (PCI) and structural heart disease. • Electrophysiology and Pacing: Advanced training in arrhythmia management (2D & 3D Ablation) and device implantation (pacemakers, ICD, CRT). • Pediatric Cardiology and Congenital Heart Disease: Focus on neonatal cardiac care and structural repairs. • Cardiovascular Imaging: Advanced proficiency in Echocardiography, Cardiac CT, and MRI. • Heart Failure and Pulmonary Hypertension: Comprehensive management of end-stage heart diseases. • Vascular Medicine: Specialized care for peripheral arterial and venous disorders. <p>Why Train at NCCHK?</p> <ol style="list-style-type: none"> 1. High Case Volume: As a national referral hospital, fellows are exposed to an unparalleled volume and variety of cases, providing a steep and rewarding learning curve. 2. State-of-the-Art Technology: Fellows train in modern facilities, including hybrid operating theaters, advanced Cath Labs, and the latest non-invasive diagnostic tools. 3. Expert Mentorship: Programs are led by internationally recognized senior consultants who are pioneers in their respective fields. |

| | |
|---|---|
| | 4. Collaborative Research: The center encourages clinical research, allowing fellows to contribute to the advancement of cardiovascular science globally. |
