

## APHRS-Certified Fellowship Training Centre

<b>Name of Training Centre</b>	Division of Cardiac Electrophysiology (Heart Rhythm Center), Cardiovascular Center, Taipei Veterans General Hospital
<b>Short Introduction</b>	The Heart Rhythm Center at Taipei Veterans General Hospital is a leading tertiary referral center dedicated to the diagnosis and management of complex cardiac arrhythmias. Under the leadership of Professor Shih-Ann Chen, Li-Wei Lo and a multidisciplinary team of experienced electrophysiologists, the center delivers state-of-the-art, patient-centered care through the integration of advanced technologies, including radiofrequency ablation, cryoablation, and pulsed field ablation (PFA). Recognized as an APHRS Center of Excellence, the program is actively engaged in regional, national, and international research and educational initiatives. The center has participated in numerous landmark global multicenter clinical trials, including BRAVO, PULSE-SCD, PFA ReMATCH, and AVANT GUARD, and continues to translate innovative electrophysiological discoveries into routine clinical practice. With a strong commitment to education, the center provides structured clinical training for both domestic and international fellows, combining high-volume procedural exposure with rigorous academic mentorship to cultivate future leaders in cardiac electrophysiology.
