

## APHS-Certified Fellowship Training Centre

<b>Name of Training Centre</b>	The Affiliated Hospital of Wenzhou Medical University
<b>Short Introduction</b>	<p>The First Affiliated Hospital of Wenzhou Medical University, founded in 1919, serves nearly 30 million people. It employs over 6,800 staff across three campuses, covering 764 acres with 3,800 beds. In 2024, the hospital handled 6.34 million outpatient visits and performed 132,300 surgeries. The Department of Cardiology is the largest heart medical center in the region and a nationally recognized Chest Pain, Heart Failure, and Atrial Fibrillation Center.</p> <p>The annual number of CIED implants is the highest in the Zhejiang province, with CRT-P/D implants ranking among the top nationwide. The center pioneered HBP in China in 2011, and in 2017, Professor Huang Weijian reported the world's first LBBP procedure. The center has developed a comprehensive CSP, from mechanisms and definitions to clinical research, and this technology is now applied in over 800 centers worldwide. The center has performed over 4,000 CSP implants, the highest in China and conducted over 250 surgical demonstrations and trained more than 2,000 professionals, attracting experts from around the world for exchanges. In addition, the center is actively advancing research in physiological atrial pacing. Current work focuses on high atrial septal pacing and Bachmann's bundle pacing, encompassing both clinical implementation and mechanistic investigation. The team has published numerous high-quality papers, written and contributed to pacing consensus, and Professor Huang Weijian has received the National Health Advanced Individual Award and the HRS First "Founders' Lectureship Award". He was also invited to publish a commentary in Circulation magazine for the AHA Centennial on the advancements and future directions of LBBP.</p> <p>With a 30-year history in electrophysiological surgery, the center ranks among the top three in the province and top 15 nationwide in terms of surgical volume. It has frequently conducted training programs on "Catheter Ablation for Arrhythmias" and "Catheter Ablation Techniques Guided by Intracardiac Ultrasound." Since pioneering left atrial appendage occlusion in 2014, the center has consistently ranked among the top five nationwide in annual surgical volume, often ranking first.</p>

	<b>What Trainees Will Learn:</b> <ul style="list-style-type: none"> <li>• Hands-on experience with HBP and LBBP</li> <li>• Knowledge of high atrial septal pacing and Bachmann’s bundle pacing.</li> <li>• Training in catheter ablation for arrhythmias, intracardiac ultrasound-guided ablation and LAAO techniques.</li> </ul>
<b>Official Website of Training Centre</b>	<a href="https://www.wzhospital.cn/en/home">https://www.wzhospital.cn/en/home</a>
<b>Country &amp; City</b>	China, Wenzhou
<b>Contact Person &amp; Email</b>	Shengjie Wu, <a href="mailto:wusj@wmu.edu.cn">wusj@wmu.edu.cn</a> Lan Su, <a href="mailto:sulan@wzhospital.cn">sulan@wzhospital.cn</a>
<b>Field of Expertise</b> ( <i>EP, CIED</i> )	CIED, EP
<b>Number of Procedures per Year</b>	<b>Ablations:</b> 3500
	<b>Device Implantations:</b> 1400
<b>Products / Systems Used</b> ( <i>e.g., Carto, Ensite, PFA, etc.</i> )	Bard, Carto, Ensite, PFA, etc
<b>Specific Procedures Offered</b> ( <i>Procedures participants can expect in addition to the usual ones, e.g., CSP, SCID/EVICD</i> )	CSP, BBP, SCID, EVICD, Leadless, PFA
<b>List of Electrophysiologists</b>	<ul style="list-style-type: none"> <li>• Dr. Weijian Huang</li> <li>• Dr. Lan Su</li> <li>• Dr. Fangyi Xiao</li> </ul>
<b>Available Training Duration</b>	<input checked="" type="checkbox"/> Long Term: 1 Year
	<input checked="" type="checkbox"/> Short Term: 2 Weeks
	<input checked="" type="checkbox"/> Short Term: 1 Month
	<input checked="" type="checkbox"/> Short Term: 3 Months
